RESEARCH FIELD

Behavioral and Experimental Economics. My research investigates what factors cause deep discontent to develop, and what factors amplify and mitigate it. More specifically, I use experimental methods to investigate how unfavorable outcomes lead to discontent, how voice mitigates this, and what role biased belief updating and humbugging could play in amplifying it.

CURRENT POSITION

Research Associate & PhD Candidate, University of Magdeburg

since 2022

Visiting Researcher, University of Melbourne

Feb–Apr 2026

Hosts: Prof. Dr. Nisvan Erkal & Dr. Max Grossmann

WORK IN PROGRESS

- Beyond the Contract: Fairness, Observability, and Discretionary Effort (*with Simon Halliday, Eugene Malthouse, and Anastasia Papadopoulou*); Writing up paper
- Giving a Voice – Increasing Individual Self-Expression to Enhance the Resilience to System Discontent; Writing up paper
- Feeling Forgotten – The Rise of System Disbelief (*with Karim Sadrieh*); Writing up paper
- Voluntary Cooperation in the Long Run; Writing up paper
- Something Always Sticks – Strategic Bullshit and the Reliance on Uninformed Sources (*with Jannik T. Greif and Karim Sadrieh*); Data collection completed, analysis in progress
- Seen One, Seen Them All (*with Max R. P. Grossmann and Karim Sadrieh*); Data collection ongoing
